

KANSAS ANGUS News

Number 525

Kansas Angus Association

March 2005

*Complete Coverage of the 50th
Annual Kansas Angus Futurity*

The President Speaks

Spring Time is near!

Along with spring renewal and new born calves comes the need to shop for that new herd bull or bulls to add some fresh genetics to your cow herd. Whether you are a commercial or registered breeder, we all engage in some degree of bull shopping during the year. Sometimes we may believe that the more miles we travel looking for bulls the better chance we have of finding the right ones for our herds. However, this philosophy may be a fallacy!

Kansas Angus Association Breeders are producing some of the best cattle in the nation. Within a few miles of your farm or ranch may be the right bull for your needs. Take advantage of the many upcoming production sales along with many private treaty opportunities that exist in our state.

The recent 50th Kansas Angus Futurity was a grand success with an excellent offering from 35 consignors and strong buyer support. The event was a fine tribute to the quality of our KAA members programs.

At this time, I would like to thank our recent past president of the KAA, Todd Kohart, for his hard work and dedication to our organization this past year. It takes many, many hours of work by many, many people to help keep our membership strong and successful.

Enjoy the spring weather. Contact me with your questions, ideas and concerns.

Mike Molitor

Notes from the Secretary- Editor

I hope you enjoy the photos of the 50th Kansas Angus Futurity that are in this issue. The sale and banquet was a great success with the largest crowd we have had in several years. A big thanks goes to all of the members who worked to make the event a success and a special thanks to the 50th Futurity consignors for your participation as you know without the tremendous sale offering we had from you it would have not been possible.

If you have not submitted your farm or ranch story for publication in the upcoming Kansas Angus Association history book please do as soon as possible. If you have questions concerning your submission contact me.

I hope to see many of you at upcoming Ks Angus Association events and spring sales.

Anne

Sale March 22

5th Annual KAA Bull Growers "Top Cut Sale"

The 5th Annual Kansas Angus Association Bull Grower Project is underway. Bulls on test have met all EPD and weight guidelines set by the project. Bulls began test in early November at the Earl Reno Farm in Cheney, Ks.

Bulls will sell on March 22, 2005 at the Farmers and Ranchers Comm. Co. Salina, KS

All sale bulls will be ultra sound scanned and have complete health and fertility checks. For more information contact

Mike Molitor, Project Chairman at 620-243-3081 or Earl Reno at the feeding facility at 316-542-3970.

Bulls may be viewed at the Earl Reno Farm in Cheney. For a **SALE BOOK** contact Anne at 620-872-3915 or kansasangus@wbsnet.org

KAN or on www.kansasangus.org

THE BUZZ STOPS HERE.

The ideal insecticide.

Has your insect control program lost its effectiveness over time? Now you can revitalize it with the first new insect control technology introduced in more than 20 years. As the first product in the new spinosyn class, Elector™ offers ongoing effective control of flies and lice as well as superior safety. It's the ideal rotational alternative to older products on the market.

First new insecticide class in over 20 years

Kills flies and lice

- Including flies resistant to other insecticides

Superior safety characteristics

- Non-irritating to animals and people
- Superior environmental characteristics

Easy to use

- No protective equipment needed
- Application flexibility
- Visible coverage at site of application

Your expectations for effective insect control just got a lot higher—the buzz stops with Elector. Ask for Elector at your local distributor, feed store or veterinary clinic.

Eight full brothers selling. Dam is an excellent daughter of "1680" with near perfect udder. Full brothers to "176", E&B Precision 1023 sold in our 2002 Production Sale to Dalebanks Angus in Eureka, Kansas. "1023" is on his way to ABS for stud service for this coming spring. The dam of "176" and "1023" is a powerful "6807" cow that was in our donor program before being sold to Bobby Daniels in Texas.
