

# KAA Partners with CAB® for Annual Carcass Data Project

Cash and Prizes offered, McPherson County Feeders is host

2016-17

## Enter steers by Dec 10, 2016

The 2017 Carcass Data Project (CDP) is designed for all producers using registered Angus bulls including those that may not have enough steers to make a whole pen at a commercial feed yard but want retain ownership and collect individual carcass data on their steers or for producers that may want to feed a few head and compete for recognition as the 2017 CDP winner. Kansas Angus Association members are encouraged to promote the CDP to their bull customers. To participate in the project producers must enter a minimum of five spring born steers weaned at least 45 days prior to delivery. Steers must be out of a registered Angus bull and have a known sire or sire group. An approved vaccination program as well as having individual identification tags is also required.

The KAA is proud to continue it's partnership with Certified Angus Beef, LLC to enhance your CDP experience. CAB is sponsoring up to a \$1000 in cash awards and CAB merchandise to the owners of the top group of steers (using CAB acceptance and quality grade as the main criteria). In addition, CAB will present each CDP participant with CAB logo merchandise. Actual cash award is based upon participation. McPherson County Feeders (MCF), Marquette, Kansas will host the CDP.

The annual Carcass Data Project (CDP) gets underway in December. Entries are due December 10, 2016, \$5 per head entry fee payable to the Ks Angus Association. McPherson County Feeders will bill participants twice a month for feed. Participants are responsible for delivery/transportation to MCF, December 27-29, 2016. To enter complete the entry form below or fill our online form at [www.kansasangus.org](http://www.kansasangus.org); upon entry you will receive an information sheet to complete detailing your steers individual information.
